

	<b>Briar Hill Primary School POLICY</b>	
	<b>Policy Number:</b>	<b>Title: Administration of Medication</b>

**PREPARED BY:** Policy Sub Committee

**APPROVED BY**  
**SCHOOL COUNCIL:** February 2019

### **PURPOSE**

To explain to parents/carers, students and staff the processes Briar Hill Primary School will follow to safely manage the provision of medication to students while at school or school activities, including camps and excursions.

### **SCOPE**

This policy applies to the administration of medication to all students. It does not apply to:

- the provision of medication for anaphylaxis which is provided for in our school's Anaphylaxis Policy
- the provision of medication for asthma which is provided for in our school's Asthma Policy
- specialised procedures which may be required for complex medical care needs.

### **POLICY**

If a student requires medication, Briar Hill Primary School encourages parents to arrange for the medication to be taken outside of school hours. However, Briar Hill Primary School understands that students may need to take medication at school or school activities. To support students to do so safely, Briar Hill Primary School will follow the procedures set out in this policy.

#### **Authority to administer**

If a student needs to take medication while at school or at a school activity:

- Parents/carers will need to arrange for the student's treating medical/health practitioner to provide written advice to the school which details:
  - the name of the medication required
  - the dosage amount
  - the time the medication is to be taken
  - how the medication is to be taken
  - the dates the medication is required, or whether it is an ongoing medication
  - how the medication should be stored.
- In most cases, parents/carers should arrange for written advice to be provided in a Medication Authority Form which a student's treating medical/health practitioner should complete.
- If advice cannot be provided by a student's medical/health practitioner, the principal (or their nominee) may agree that written authority can be provided by, or the Medication Authority Form can be completed by a student's parents/carers.
- The principal may need to consult with parents/carers to clarify written advice and consider student's individual preferences regarding medication administration (which may also be provided for in a student's Student Health Support Plan).

Parents/carers can contact the school office for a Medication Authority Form.

#### **Administering medication**

Any medication brought to school by a student needs to be clearly labelled with:

	<b>Briar Hill Primary School POLICY</b>	
	<b>Policy Number:</b>	<b>Title: Administration of Medication</b>

- the student's name
- the dosage required
- the time the medication needs to be administered.

Parents/carers need to ensure that the medication a student has at school is within its expiry date. If school staff become aware that the medication a student has at school has expired, they will promptly contact the student's parents/carers who will need to arrange for medication within the expiry date to be provided.

If a student needs to take medication at school or a school activity, the principal (or their nominee) will ensure that:

1. Medication is administered to the student in accordance with the Medication Authority Form so that:
  - the student receives their correct medication
  - in the proper dose
  - via the correct method (for example, inhaled or orally)
  - at the correct time of day.
2. A log is kept of medicine administered to a student.
3. Where possible, two staff members will supervise the administration of medication.
4. The teacher in charge of a student at the time their medication is required:
  - is informed that the student needs to receive their medication
  - if necessary, release the student from class to obtain their medication.

#### *Self-administration*

In some cases it may be appropriate for students to self-administer their medication. The principal may consult with parents/carers and consider advice from the student's medical/health practitioner to determine whether to allow a student to self-administer their medication.

If the principal decides to allow a student to self-administer their medication, the principal may require written acknowledgement from the student's medical/health practitioner, or the student's parents/carers that the student will self-administer their medication.

#### **Storing medication**

The principal (or their nominee) will put in place arrangements so that medication is stored:

- securely to minimise risk to others
- in a place only accessible by staff who are responsible for administering the medication
- away from a classroom (unless quick access is required)
- away from first aid kits
- according to packet instructions, particularly in relation to temperature.

For most students, Briar Hill Primary School will store student medication at the sick bay. The principal may decide, in consultation with parents/carers and/or on the advice of a student's treating medical/health practitioner:

- that the student's medication should be stored securely in the student's classroom if quick access might be required
- to allow the student to carry their own medication with them, preferably in the original packaging if:

	<b>Briar Hill Primary School POLICY</b>	
	<b>Policy Number:</b>	<b>Title: Administration of Medication</b>

- the medication does not have special storage requirements, such as refrigeration
- doing so does not create potentially unsafe access to the medication by other students.

### Warning

Briar Hill Primary School will not:

- in accordance with Department of Education and Training policy, store or administer analgesics such as aspirin and paracetamol as a standard first aid strategy as they can mask signs and symptoms of serious illness or injury
- allow a student to take their first dose of a new medication at school in case of an allergic reaction. This should be done under the supervision of the student's parents, carers or health practitioner
- allow use of medication by anyone other than the prescribed student except in a life threatening emergency, for example if a student is having an asthma attack and their own puffer is not readily available.

### Medication error

If a student takes medication incorrectly, staff will endeavour to:

Step	Action
1.	If required, follow first aid procedures outlined in the student's Health Support Plan or other medical management plan.
2.	Ring the Poisons Information Line, 13 11 26 and give details of the incident and the student.
3.	Act immediately upon their advice, such as calling Triple Zero "000" if advised to do so.
4.	Contact the student's parents/carers or emergency contact person to notify them of the medication error and action taken.
5.	Review medication management procedures at the school in light of the incident.

In the case of an emergency, school staff may call Triple Zero "000" for an ambulance at any time.

## FURTHER INFORMATION AND RESOURCES

### **Appendix A Medication Management Procedure**

The school has developed procedures for the appropriate storage and administration of prescribed and non-prescribed medicines to students by school staff with reference to individual student medical information.

#### **Student Information**

- Parents and/or guardians are required to keep the school informed of current medical contact details concerning students and any current medical conditions and appropriate medical history.
- Every student who has a medical condition or illness has an individual management plan that is attached to the student's records.
- This management plan is provided by the student's parents/guardians and contains details of:
  - the usual medical treatment needed by the student at school or on school activities
  - the medical treatment and action needed if the student's condition deteriorates
  - the name, address and telephone numbers for an emergency contact and the student's doctor.

#### **Administration of prescribed Oral Medication**

- Parents/guardians are required to inform the principal in writing of any prescribed medication that students need to take in school hours.
- Where medication is required in spontaneous situations, detailed administration instructions should be provided, for example in the case of asthma attacks.
- Medication Administration Permission Forms are available from the Administration Office and should be completed and signed by the parent/guardian.
- All medication sent to school is to be administered by school staff and, parents/guardians are required to supply medication in a container that gives the name of the medication, name of the student, the dose, and the time it is to be given. Where medication for more than one day is supplied, it is to be locked in the storage cupboard in the school administration office.

#### **Administration of Analgesics**

- Analgesics are only to be given following permission of parents/guardians and are to be issued by a First Aid Officer who maintains a record to monitor student intake.
- Analgesics are to be supplied by the parents.

#### **Asthma**

**For treatment of Asthma please refer to the Asthma Policy**

## Appendix B Medical Instructions and Authority Form

This form should be completed ideally by the student's medical/health practitioner, for all medication to be administered at school. For those students with asthma, an Asthma Foundation's *School Asthma Action Plan* should be completed instead. For those students with anaphylaxis, an ASCIA *Action Plan for Anaphylaxis* should be completed instead. These forms are available from the Australasian Society of Clinical Immunology and Allergy (ASCI): <http://www.allergy.org.au/health-professionals/ascia-plans-action-and-treatment>.

Please only complete those sections in this form which are relevant to the student's health support needs.

Name of School: \_\_\_\_\_

Student's Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_

MedicAlert Number (if relevant): \_\_\_\_\_ Review date for this form: \_\_\_\_\_

**Please Note: wherever possible, medication should be scheduled outside the school hours, e.g. medication required three times a day is generally not required during a school day: it can be taken before and after school and before bed.**

Medication required:				
Name of Medication/s	Dosage (amount)	Time/s to be taken	How is it to be taken? (eg orally/topical/injection)	Dates
				Start date: / / End Date: / / <input type="checkbox"/> Ongoing medication
				Start date: / / End Date: / / <input type="checkbox"/> Ongoing medication
				Start date: / / End Date: / / <input type="checkbox"/> Ongoing medication
				Start date: / / End Date: / / <input type="checkbox"/> Ongoing medication

### Medication Storage

Please indicate if there are specific storage instructions for the medication:

.....

.....

.....

## Medication delivered to the school

Please ensure that medication delivered to the school:

- Is in its original package
- The pharmacy label matches the information included in this form.

## Self-management of medication

Students in the early years will generally need supervision of their medication and other aspects of health care management. In line with their age and stage of development and capabilities, older students can take responsibility for their own health care. Self-management should follow agreement by the student and his or her parents/carers, the school and the student's medical/health practitioner.

Please advise if this person's condition creates any difficulties with self-management, for example, difficulty remembering to take medication at a specified time or difficulties coordinating equipment:

---

---

---

## Monitoring effects of Medication

Please note: School staff *do not* monitor the effects of medication and will seek emergency medical assistance if concerned about a student's behaviour following medication.

### Privacy Statement

The school collects personal information so as the school can plan and support the health care needs of the student. Without the provision of this information the quality of the health support provided may be affected. The information may be disclosed to relevant school staff and appropriate medical personnel, including those engaged in providing health support as well as emergency personnel, where appropriate, or where authorised or required by another law. You are able to request access to the personal information that we hold about you/your child and to request that it be corrected. Please contact the school directly or FOI Unit on 96372670.
